

Year 1 Classroom News

STAND OUT
FROM THE CROWD

April Highlights

English We have been focusing on the letter names and sounds which we have learned so far. It has been fun looking at big books together and discussing the events in each story. We are very good at finding words we know.

Math We are now counting forwards and backwards from any number to 35 using our number charts. We can say the numbers before, after, and in between given numbers. We are recognising the number words one to ten with ease. Ordering numbers from smallest to biggest is fun. We enjoyed making shape pictures. We love finding 3D shapes in our classroom and around the school.

Science It has been interesting learning about different kinds of animals and discovering where they live. We made a pop up poster of animals and their homes. We also played a game of matching animal babies to their parents.

Social Studies We really enjoy singing 'The Continents' song and are able to find the seven continents on the globe. We love locating Chile and know that we live in a big city called Santiago. It was fun describing our houses to each other. We have looked at a few buildings and structures within our big city.

UP NEXT MONTH

SCIENCE & SOCIAL STUDIES

Living and Growing

- Plants
- Our Senses

Landforms

- Mountains
- Hills
- Valleys

ENGLISH

- New sounds
g, o, l, u, f, and b
- Make words with
learned sounds eg. sat,
has, mat...
- Look at punctuation
- full stops
- Letter formation

MATH

- Counting in 2s – odd
and even numbers
- Counting in 10s
- Doubling
- Ordering events
- Subtraction
